

# GDPR research participation

Thank you very much for showing your interest in participating in our research. Me (Claudia Negri-Ribalta) with René Noël, Rosa Velasquez and Sébastien Fassiaux are looking to validate a proposal we have made on GDPR and your participation would be very valuable. We will send you a few questions and we will only need about 45 mins of your time for you to participate in a focus group. This will be all done in a zoom call.

We would be very grateful if you could leave us some of your details so that we can coordinate your participation. Thank you in advance!

PS: We have received comments that the emails arranging the meeting go to the spam folder or are encrypted. Please beware of this
